

Archaeometallurgy: The Origin of Metals

ANTH-A211 CASE N & M
JUNE 22-JULY 31 (6W2)
10:20AM-12:20PM TWR

Instructor: Ryan Peterson

From swords to smartphones, humans have extracted, mined, and manipulated metals for thousands of years. This course will explore the historical and environmental impact of humanity's use of metals through engaging activities and the global lens of archaeology!

6 Weeks Session 2

June 22nd - July 31st
