

CURRICULUM VITAE

Kevin D. Hunt

Academic Appointments

- 2005 – Professor, Anthropology and Center for the Integrative Study of Animal Behavior (Core Faculty, 2002), Indiana University
- 1997 – 2004 Associate Professor, Anthropology and Center for the Integrative Study of Animal Behavior (Core Faculty, 2002), Indiana University
- 1991 – 1997 Assistant Professor of Anthropology, Adjunct Professor, Animal Behavior Program, Indiana University
- 1989 – 1991 Postdoctoral Fellow, Harvard University

Address

Office:

Department of Anthropology
Indiana University
Bloomington, IN 47405

Home:

3407 E. Mulberry Drive
Bloomington, IN 47401

Telephone

Office (direct): (812) 855-3857
Department: (812) 855-2555
Fax: (812) 855-4358
Home: (812) 336-9032

Electronic

E-mail: kdhunt@indiana.edu
Web Page: <http://indiana.edu/~semliki>

Education

- 1989 University of Michigan, Ann Arbor. Ph.D., Biological Anthropology
“Positional behavior in *Pan troglodytes* at the Mahale Mountains and Gombe National Parks, Tanzania.” (C.L. Brace and R.W. Wrangham, co-chairs)
- 1982 University of Michigan, Ann Arbor. M.A., Biological Anthropology
- 1980 University of Tennessee, Knoxville. B.A., Biological Anthropology
(Highest Honors, College Scholar)

Personal

Married to Marion Gewartowski Hunt
Three children: Daniel Walter (born 1990), Marion Alison (b. 1990), David Lloyd (b. 1993)
Birthdate: March 16, 1957; in Indianapolis, Indiana

Languages

German: Reading intermediate, speaking basic
French: Reading intermediate, speaking basic
Swahili: Reading and speaking basic

Honors and Awards

- 2007 Trustees Teaching Award, Indiana University
- 2002 Trustees Teaching Award, Indiana University
- 2000 Teaching Excellence Recognition Award, Indiana University
- 1997 Teaching Excellence Recognition Award, Indiana University
- 1996 First alternate, Outstanding Junior Faculty Award, Indiana University
- 1993, 1995 Nominated for Presidential Faculty Fellows Award, by Indiana University.
- 1990 Chief's Award, Ann Arbor Police Department, for contribution to the safety and welfare of the city
- 1980 Phi Kappa Phi National Fellowship Honorable Mention
- 1980 Phi Kappa Phi Chapter Scholar, University of Tennessee

Other Professional Recognition

- 1995 – Listed in Marquis' *Who's Who in Science and Engineering*
- 1999 Lexington's *Who's Who*
- 1999 *International Who's Who of Professionals*

Extramural Grants and Fellowships (P.I. in italics)

- 2010 Excavation of an underwater cavern containing primates, other extinct vertebrates and archaeological remains in Hispaniola: A site under threat. Co-PI with C. Beeker; PI: G.W. Conrad. National Science Foundation, BCS-1042835 (\$19,878)
- 2010 Positional Behavior of *Pan paniscus* at Lui Kotale, Democratic Republic of Congo. Kevin D. Hunt and Gilbert Ramos. Leakey Foundation (\$13,500)
- 2009 Orangutan and chimpanzee positional behavior. *S.K.S. Thorpe* and Kevin D. Hunt. Royal Society (UK) International Travel Grant (\$3,078.16 [£1917.60])
- 2008 Positional Behavior of *Pan paniscus* at Lui Kotale, Democratic Republic of Congo. Kevin D. Hunt and Gilbert Ramos. Leakey Foundation (\$11,500)
- 2004 – 2005 Dry Habitat Chimpanzee Ecology and Conservation at Toro-Semliki, Uganda (with Randy R. Patrick), Heritage Oil Company (\$25,000)
- 2002 Physical properties of primate ribs: Variation cortical area and second moments of area. REU Supplement to National Science Foundation BCS 98-15991 (\$2,000)
- 2000 Dissertation research: Biomechanical investigation of African apes and influences of positional behavior. Dissertation support for Kristian J. Carlson. National Science Foundation BCS-0002686 (\$7,922).
- 1998 – 2004 Dry habitat chimpanzee ecology and behavior: Implications for human bipedalism. National Science Foundation BCS 98-15991 (\$108,790)

- 1996 – 1997 Ecological bases of human bipedalism: study of open habitat chimpanzees at the Semliki Valley Wildlife Reserve, Uganda. National Science Foundation, SGER BNS 97-11124 (\$19,758)
- 1993 Locomotion and posture among primates of the Kibale Forest, Uganda. USAID/Makerere University Research Subcommittee (\$5,863)
- 1991 Dietary differences between monkeys and apes (co-Investigator with N.L. Conklin; Principal Investigator *R. W. Wrangham*), National Science Foundation BNS 91-20960 (\$112,950)
- 1986 Positional behavior in *Pan troglodytes*. (to *R. W. Wrangham*), National Science Foundation Dissertation Improvement Program, BNS-86-09869 (\$9,630)
- 1986 Quantification of positional behavior in *Pan troglodytes*. Sigma Xi (\$200)
- 1986 Positional behavior in *Pan troglodytes*. Leakey Foundation (\$4,095)
- 1980 Danforth Fellowship Finalist (\$250)

Intramural Grants and Fellowships

- 2009 Study of Dry-Habitat Chimpanzees at Toro-Semliki Wildlife Reserve, Uganda. Faculty Research Support Program (\$45,377)
- 2009 Dry habitat chimpanzee ecology: implications for human evolution. Overseas Research Grant, Office of the Vice President for International Affairs (\$2,500)
- 2005 Dry habitat chimpanzee ecology: implications for human evolution. Bridge Grant, College of Arts and Sciences, Indiana University (\$21,500)
- 2002 Continuing research on dry habitat chimpanzee ecology: implications for human evolution. Summer Faculty Fellowship, Indiana University (\$8,000)
- 1999 Dry habitat chimpanzee ecology: implications for human evolution. Summer Faculty Fellowship, Indiana University (\$6,500)
- 1998 Lilly Fellowship, Indiana University, Bloomington (\$5,000)
- 1996 Dry habitat chimpanzee ecology: implications for human evolution. Summer Faculty Fellowship, Indiana University (\$6,500)
- 1994 Instructional technology equipment for the Student Building. (*S. Robeson & K.D. Hunt*) Office of Information Technology, Indiana University (\$22,800)
- 1994 Visual imaging for the departments of anthropology and geography. (*K.D. Hunt* and *S. Robeson*) Office of Information Technology, Indiana University (\$13,324)
- 1993 The nature of open-forest food resources: implications for the evolution of bipedalism. Summer Faculty Fellowship, Indiana University (\$6,500)
- 1993 Locomotion and posture among primates of the Kibale Forest, Uganda. RUGS (IU) Emergency Grant-in-Aid, Indiana University (\$500)

1991	Summer Faculty Fellowship, Indiana University (\$4,500)
1988	Rackham (Michigan) Dissertation Fellowship (\$4,800)
1986	Margaret Wray French Fellowship (\$600)
1986	Horace H. Rackham (Michigan) Dissertation Research Grant (\$1,500)
1985	Horace H. Rackham (Michigan) Predissertation Grant (\$600)

Honorary Societies

1979	Phi Kappa Phi
1978	Phi Beta Kappa
1976	Phi Eta Sigma

Undergraduate Scholarships

1979	Roddy Upperclassman Scholarship, University of Tennessee
1978	Roddy Upperclassman Scholarship, University of Tennessee
1977	Roddy Upperclassman Scholarship, University of Tennessee
1976	Colonel T. Barton Scholarship, University of Tennessee
1975	Lions Club (Oak Ridge, TN chapter) Scholarship, University of Tennessee

Publications

1. Books.

<i>Manuscript</i>	<i>K.D. Hunt. Sister Species: Lessons from the Chimpanzee.</i>
<i>In preparation</i>	<i>K.D. Hunt (ed.) Refocusing on Human Evolution: Human Paleontology Inspired by C. Loring Brace.</i>

2. Peer-Reviewed Articles (senior author in italics)

1. 1986 K.D. Hunt and V.J. Vitzthum. Dental metric assessment of the Omo fossils: Implications for the phylogenetic position of *Australopithecus africanus*. *American Journal of Physical Anthropology* **71**: 141-155.
2. 1987a C.L. Brace, K.R. Rosenberg and K.D. Hunt. Gradual change in human tooth size in the late Pleistocene and post-Pleistocene. *Evolution* **41**: 705-720.
3. 1987b H. Takasaki and K.D. Hunt. Further medicinal plant consumption in wild chimpanzees? *African Study Monographs* **8**(2): 125-128.
4. 1990a C.L. Brace and K.D. Hunt. A non-racial craniofacial perspective on human variation: **A**(ustralia) to **Z**(uni). *American Journal of Physical Anthropology* **82**(3): 341-360.
5. 1990b C.L. Brace, M.L. Brace, Yukio Dodo, K.D. Hunt, W.R. Leonard, Li Yongyi, Shao Xiang-qing, Sood Sangvichien and Zhang Zhenbiao. Micronesians, Asians, Thais and relations: A craniofacial and odontometric perspective. *Micronesica* Suppl. **2**: 323-348.
6. 1991a K.D. Hunt. Positional behavior in the Hominoidea. *International Journal of Primatology* **12**(2): 95-118.

7. 1991b R.W. Wrangham, N.L. Conklin, C.A. Chapman and K.D. Hunt. The significance of fibrous food for Kibale Forest chimpanzees. *Philosophical Transactions of the Royal Society (B)* **334**: 171-178.
8. 1991c K.D. Hunt. Mechanical implications of chimpanzee positional behavior. *American Journal of Physical Anthropology* **86**: 521-536.
9. 1992a K.D. Hunt. Positional behavior of *Pan troglodytes* in the Mahale Mountains Mountains and Gombe Stream National Parks, Tanzania. *American Journal of Physical Anthropology* **87**(1): 83-107.
10. 1992b K.D. Hunt. Social rank and body size as determinants of positional behavior in *Pan troglodytes*. *Primates* **33**(3): 347-357.
11. 1992c C.A. Chapman, L.J. Chapman, R.W. Wrangham, K.D. Hunt, D.L. Gebo and L.J. Gardner. Estimators of fruit abundance of tropical trees. *Biotropica* **24**(4): 527-531.
12. 1993 R.W. Wrangham, N.L. Conklin, G. Etot, J. Obua, K.D. Hunt, M.D. Hauser and A.P. Clark. The value of figs to chimpanzees. *International Journal of Primatology* **14**: 243-256.
13. 1994a K.D. Hunt. The evolution of human bipedality: ecology and functional morphology. *Journal of Human Evolution* **26**: 183-202.
14. 1994b D. M. Doran and K.D. Hunt. The comparative locomotor behavior of chimpanzees and bonobos: species and habitat differences. In: *Chimpanzee Cultures*, R.W. Wrangham, W.C. McGrew, F. de Waal and P.G. Heltne (eds.). Harvard University Press: Cambridge, pp. 93-108.
15. 1994c K.D. Hunt. Body size effects on vertical climbing among chimpanzees. *International Journal of Primatology* **15**: 855-865.
16. 1996a K.D. Hunt. The postural feeding hypothesis: an ecological model for the evolution of bipedalism. *South African Journal of Science* **92**: 77-90.
17. 1996b K.D. Hunt, J.G.H. Cant, D.L. Gebo, M.D. Rose, S.E. Walker, & D. Youlatos. Standardized descriptions of primate locomotor and postural modes. *Primates* **37**: 363-387.
18. 1998a K.D. Hunt, V.L. Dean, D.W. Fitting, and L. Adler. Ultrasonic determination of the elastic modulus of human cortical bone. *Medical and Biological Engineering and Computing* **6**: 51-56.
19. 1998b M.W. Marzke, N. Toth, K. Schick, S. Reece, B. Steinberg, K.D. Hunt, R.L. Linscheid, and K.-N. An. EMG study of hand muscle recruitment during hard hammer percussion manufacture of Oldowan tools. *American Journal of Physical Anthropology* **105**: 315-333.
20. 1998c R.W. Wrangham, N.L. Conklin-Brittain and K.D. Hunt. Dietary response of chimpanzees and cercopithecines to seasonal variation in fruit abundance. I. Antifeedants. *International Journal of Primatology*. **19**: 949-970.
21. 1998d N.L. Conklin-Brittain, R.W. Wrangham, and K.D. Hunt. Dietary response of chimpanzees and cercopithecines to seasonal variation in fruit abundance. II. Macronutrients. *International Journal of Primatology*. **19**: 971-998.

22. 2003a *Toshisada Nishida*, Nadia Corp, Miya Hamai, Toshikazu Hasegawa, Mariko Hiraiwa-Hasegawa, Kazuhiko Hosaka, Kevin D. Hunt, Noriko Itoh, Kenji Kawanaka, Akiko Matsumoto-Oda, John C. Mitani, Michio Nakamura, Koshi Norikoshi, Tetsuya Sakamaki, Linda Turner, Shigeo Uehara and Koichiro Zamma. Demography, female life history and reproductive profiles among the chimpanzees of Mahale. *American Journal of Primatology*. **59** (3): 99-121.
24. 2003b *K.D. Hunt*. The single species hypothesis: truly dead and pushing up bushes, or still twitching and ripe for resuscitation? *Human Biology*. **75** (4): 485-502.
25. 2006 *K.J. Carlson*, D.M. Doran-Sheehy, K.D. Hunt, T. Nishida, A. Yamanaka, and C. Boesch. Locomotor behavior and long bone morphology in individual free-ranging chimpanzees. *Journal of Human Evolution*. **50** (4): 394-404.
26. 2007a *A. Matsumoto-Oda*, M. Hamai, H. Hayaki, K. Hosaka, K.D. Hunt, E. Kasuya, K. Kawanaka, J.C. Mitani, K. Norikoshi, H. Takasaki and Y. Takahata. Estrus cycle asynchrony in wild female chimpanzees, *Pan troglodytes schweinfurthii*. *Behavioural Ecology and Sociobiology*. 61(5): 661-668
27. 2007b *W.C. McGrew*, L.F. Marchant, K.D. Hunt. Ethoarchaeology of manual laterality: well-digging by wild chimpanzees. *Folia Primatologica*. **78**(4): 240-244.
28. 2007c *K.E. Langergraber*, H. Siedel, J.C. Mitani, R.W. Wrangham, V. Reynolds, K. Hunt and L. Vigilant. The genetic signature of sex-biased migration in chimpanzees and humans. *PLoS ONE*, 2(10): e973
29. 2010 *R.F. Kay*, K.D. Hunt, C.D. Beeker, G.W. Conrad, C.C. Johnson and J. Keller. Preliminary notes on a newly discovered skull of the extinct monkey *Antillothrix* from Hispaniola and the origin of the Greater Antillean monkeys. *Journal of Human Evolution*, 60(1): 124-128.
- in revision *D.R. Samson* and K. D. Hunt. A thermodynamic comparison of arboreal and terrestrial sleeping sites for dry habitat chimpanzees (*Pan troglodytes schweinfurthii*) at the Toro-Semliki Wildlife Reserve, Uganda. *Am. J. Primatol.*
- submitted *D.R. Samson*, M.P. Muehlenbein and K. D. Hunt. Do chimpanzees (*Pan troglodytes schweinfurthii*) exhibit sleep related behaviors that minimize exposure to flying insects? A preliminary report on sleep site choice and the insect-repellent properties of tree species (*Cynometra alexandrii*) *Int. J. Primatol.*
- ms. a *K.D. Hunt*, T. Nishida and R.W. Wrangham. Sex differences in the chimpanzee positional behavior, activity budget and diet: relative contributions of rank, reproductive demands, and body size. *International Journal of Primatology*
- ms. b *K.D. Hunt*, M.T. O'Mara, and J. Fuller. Forest composition in a dry riverine forest chimpanzee habitat at Toro-Semliki, Uganda. intended for *Primates*.
- ms. c *K.D. Hunt*, J. Fuller, J. Latham, A.J.M. Cleminson, E. Bertram, and R.I. Weiss. Drinking hole digging by chimpanzees at Semliki Wildlife Reserve, Uganda. Intended for *American Journal of Primatology*.
- in prep. a *R.R. Patrick* and K.D. Hunt. Forest soils are neutral and savanna soils are acidic across a riverine forest-savanna transition at Toro-Semliki, Uganda. Intended

for *Paleobiology*.

- in prep. b R.W. Wrangham, K.D. Hunt and N.L. Conklin-Brittain. Sex differences in diet in four sympatric Kibale Forest frugivores.
- in prep. c K.D. Hunt, J. Fuller, J. Latham, A.J.M. Cleminson, E. Bertram, T. O'Mara, and R.I. Weiss. Nesting behavior of dry-habitat chimpanzees, at Semliki, Uganda.
- in prep. d K.D. Hunt. Suspensory behavior among Kibale chimpanzees decreases when fruit is more abundant.
- in prep. e K.D. Hunt. Chimpanzee positional behavior shows surprising consistency across habitats ranging from thicket woodland to closed canopy forest. Intended for *International Journal of Primatology*.
- in prep. f K.D. Hunt and G. M. Thomas. Dry habitat and moist habitat fruit syndromes: implications for the evolution of bipedalism. Intended for *American Journal of Physical Anthropology*.

3. Peer-Reviewed Chapters

1. 1991 C.L. Brace, S.L. Smith and K.D. Hunt. What big teeth you had grandma! Human tooth size, past and present. In: *Advances in Dental Anthropology*, M. A. Kelley and C. S. Larsen (eds.). Wiley-Liss: New York, pp. 33-57.
2. 1998a K.D. Hunt. Ecological morphology of *Australopithecus afarensis*: traveling terrestrially, eating arboreally. In: *Primate Locomotion: Recent Advances*, E. Strasser, J.G. Fleagle, H.M. McHenry and A. Rosenberger (eds.). Plenum: New York, pp. 397-418.
3. 1998b D.C. Cook and K.D. Hunt. Sex differences in trace elements: status or self-selection? In: *Gender in Palaeopathological Perspective*, A. Grauer & P.L. Stuart (eds.) Cambridge University Press, pp. 64-78.
4. 2002 K.D. Hunt and W. C. McGrew. Chimpanzees in dry habitats at Mount Assirik, Senegal and at the Semliki-Toro Wildlife Reserve, Uganda. In: *Behavioural Diversity in Chimpanzees and Bonobos*, C. Boesch, G. Hohmann and L.F. Marchant (eds.) Cambridge University Press, pp. 35-51.

4. Non-Peer-Reviewed Chapters

1. 1991 C.L. Brace, D.P. Tracer and K.D. Hunt. Human craniofacial form and the evidence for the peopling of the Pacific. Proceedings of the 14th Congress of the Indo-Pacific Prehistory Association, Yogyakarta, Indonesia. *Bulletin* 11: 247-269.
2. 2002 K.D. Hunt. Primatology as a career. In: *A Guide to Careers in Physical Anthropology*, A. S. Ryan (ed.) Greenwood Publishing Group: Westport, pp. 85-107.
3. 2004 K.D. Hunt. The special demands of Great Ape locomotion and posture. In: *Evolutionary Origin of Great Ape Intelligence*, A.E. Russon and D. Begun (eds.). Cambridge University Press, pp. 629-699.

4. 2007 *K.D. Hunt.* Sex differences in chimpanzees foraging behavior and tool use: Implications for the Oldowan. In: *The Oldowan: Case Studies into the Earliest Stone Age.* Nicholas Toth & Kathy Schick (eds.) CRAFT Press, Bloomington, Indiana.
5. 2010 *R.R. Patrick, D. Patrick and K.D. Hunt.* Long term changes at the Toro-Semliki Wildlife Reserve. In: *Long Term changes in Africa's Rift Valley: impacts on biodiversity and ecosystem,* A.J. Plumptre (ed.) NOVA Science Publishers.

5. Encyclopedia Entries, Commentaries, Newsletter Articles and Other Publications

1. 1993 *K.D. Hunt.* The mosaic lifeway of the early australopithecines: piecing in some fragments from the world of the chimpanzee. *Anthroquest* 47: 3–7.

- 1989 "Positional behavior in *Pan troglodytes*." American Association of Physical Anthropologists annual meeting, San Diego CA, April 6.
- 1984 "Dental metric assessment of the phylogenetic position of *Australopithecus africanus*." American Association of Physical Anthropologists annual meeting, Philadelphia PA, April 13.

3. Invited Scholarly Lectures

- 2010 "The Road Not Taken: How Monkeys Outcompeted Apes and Set the Stage for Human Brain Expansion" Guest Lecture in Beverly Stoeltje's anthropology Capstone Seminar, March 11
- 2009 "Divergence between Old World Monkeys and Apes: What does it mean for the human diet?" Guest Lecture in Anya Royce's anthropology E105, Nov. 17
- 2008 "Chimpanzee Language," Guest Lecture in Steve Frank's A105 Linguistics class, October 7
- 2007 "Chimpanzee Language," Guest Lecture in Steve Frank's A105 Linguistics class, October 1
- 2007 "Explaining sex differences among chimpanzees in diet, positional behavior and sociality" Indiana University CISAB summer Research Experience for Undergraduates class, Bill Timberlake, organizer, May 30
- 2007 "Finding food is no picnic: The effects of party size, social rank, body size, sex and reproductive status on chimpanzee activity budgets and feeding behavior," Guest Lecture in Gracia Clark's anthropology Capstone Seminar, January 16
- 2006 "The political animal: How primates excel in cognitive tasks related to political manipulation," the 26th Annual Meeting of the Association for Politics and the Life Sciences, Bloomington, Indiana, October 26
- 2005 "The evolution of bipedalism" Max Planck Institute for Evolutionary Anthropology, June 23.
- 2005 "Functional morphology of the chimpanzee, with a brief look at early hominins." Max Planck Institute for Evolutionary Anthropology, May 17.
- 2005 "Sex differences in chimpanzee...and beyond." Max Planck Institute for Evolutionary Anthropology, May 10.
- 2005 "Finding food is no picnic: the affect of social rank, body size, party size, sex, and estrus state on activity budget and feeding behavior." Max Planck Institute for Evolutionary Anthropology, May 3.
- 2005 "The ecological morphology of chimpanzees." Leipzig Zoo, Leipzig Germany,

- April 13
- 2003 “Study of dry-habitat chimpanzee behavior in Western Uganda and its implications for human evolution..” Department of African Studies, Indiana University, September 30.
- 2003 “Why do anthropologists study primates?” Guest Lecture in Scheiber class, Indiana University, April 21
- 1999 “Is there a human fossil record?” Guest lecture in Biology L318, Biology Department, Indiana University, Bloomington, February 23.
- 1997 “Discussant: Central inhibition in chimpanzees.” Kinsey Institute, Indiana University, December 4.
- 1993 “Trees to tools: the evolution of the human foraging pattern.” Exploring African Prehistory Workshop, Indiana University, May 1.
- 1991 “Smitten hip and thigh, spared head and chest: evolution revisited on the australopithecines.” Peabody Museum, Harvard University, March 15.
- 1989 “Chimpanzee feeding ecology as an analogue for the australopithecines: arboreal bipeds?” Peabody Museum, Harvard University, Sept. 24.
- 1988 “Walk on the wild side: a cursory look at locomotion and lifestyle in the chimpanzees of Mahale and Gombe, Tanzania.” Michigan Museum of Anthropology, April 21.

4. Service and Outreach Lectures

- 2011 “The evolution of human bipedalism: hypotheses and evidence” Mini-University, IU, June 23
- 2010 “Making sense of ‘Ardi,’ the new *Ardipithecus ramidus* fossils: chimpanzee, human, or both??” Mini-University, IU, June 21
- 2009 “Not Dead Yet: Why the Neanderthal controversy still has a pulse” Mini-University, IU, June 22
- 2008 “Planet of the Apes Monkeys” Mini-University, IU, June 23
- 2007 “Lucy’s Baby: 3.3 Million-Year-Old Skeleton of a Juvenile Australopithecine Reveals the Course of Human Evolution?” Mini-University, IU, June 22
- 2007 “Did bipedalism make us human?” Science Café, Borders Bookstore, April 12
- 2004 “Chimpanzee anatomy and behavior,” Binford Elementary School (4th Grade), Bloomington, IN, June 4
- 2003 “The stages of human evolution,” Mini-University, Indiana University, June 23
- 2003 “Religion and human evolution” Read Center Bible Study Group, Indiana University, April 17
- 2002 “Progress at the periphery: research on chimpanzees in an extreme environment at Semliki, Uganda.” Animal Behavior Seminar Series, Indiana University, January 30.
- 2001 “Bipedalism since Darwin: Random walk, or positive progress?” CRAFT, Indiana University, December 7.

- 2001 "Five primate societies," Mini-University, IU, Bloomington, June 23
- 2001 "An introduction to our cousin, the chimpanzee: social behavior, language experiments, and prospects for their continuing existence in the wild," Sponsored by the Center For Sustainable Living, Monroe County Public Library, Bloomington, IN, March 3
- 2001 "Careers in academia" Binford Elementary School (5th Grade), Bloomington, IN, April 12
- 2000 "Apes of the World," Binford Elementary School (4th Grade), Bloomington, IN, November 17
- 2000 "The stages of human evolution," Mini-University, Indiana University, June 21
- 2000 "Fossil evidence for human evolution," Continuing Studies, Indiana University, February 3, 10 and 17.
- 2000 "Chimpanzees," Childs Elementary School (3rd Grade), Bloomington, IN, Feb. 4.
- 1999 "Five primate societies," Mini-University, Indiana University, Bloomington, June 25
- 1999 "Primate evolution" Binford Elementary School, Bloomington, IN, May 28.
- 1998 "Primate societies" Mini-University, Indiana University, Bloomington, June 17.
- 1998 "The diet of wild chimpanzees," Collins Living Learning Center, Indiana University, March 25.
- 1998 "Wild apes of Africa," Rap with a Researcher Program, Children's Museum of Indianapolis, March 7.
- 1997 "Progress on habituation of chimpanzees at the Semliki Valley Wildlife Reserve, Uganda." Undergraduate Anthropology Society, Indiana University, Sept. 18.
- 1997 "The panoply of human evolution: from bipedal apes to modern humans." Lecture to Bloomington North High School students, May 21, 1997.
- 1997 "Chimpanzees in wild Africa" Rogers Elementary School, Bloomington, IN, March 25.
- 1996 "Testing the predictions of the postural feeding hypothesis on chimpanzees of the Semliki Valley Wildlife Reserve, Uganda." Undergraduate Anthropology Society, Indiana University, November 12.
- 1996 "Academic opportunities at IU." Red Carpet Day presentation to high school juniors, Indiana University, November 10.
- 1996 "Human bipedalism as a two-step phenomenon." Evolutionary Biology Study Group, Indiana University, May 8.
- 1995 "The diverse societies of the great apes." Harmony (High) School, Bloomington, December 14.
- 1994 "Meet your ancestors: *Australopithecus afarensis* and *Homo erectus*." Harmony (Middle) School, Bloomington, March 8.
- 1994 "What apes tell us about our ancestors." Harmony (Grammar) School, Bloomington, March 8.

- 1992a "Sex differences in chimpanzee foraging strategies: implications for the australopithecine toolkit." CRAFT, Indiana University, February 13.
- 1992b "Hanging with the apes: field study and functional morphology of chimpanzees." Geological Sciences, Indiana University, March 4.

Teaching

1. Teaching Interests

Human paleontology, hominid and pongid functional anatomy, primate feeding ecology, primate social behavior, anatomy, human osteology

2. Courses Developed

HUMAN ORIGINS AND PREHISTORY (A105 [first taught **1991**]): In discussion groups, labs, and well-illustrated lectures the origins of features that make humans unique are investigated. Students learn what our ancestors looked like at each stage of our evolution, and why. We search for the origins of bipedalism, the reasons for our loss of body hair, and why we have large brains and rich diets. We look for the beginnings of our reliance on technology, and the roots of our current numerical success. Our fellow primates provide ecological and evolutionary examples that guide our evolutionary investigation of humans.

EVOLUTION OF PRIMATE SOCIAL BEHAVIOR (B368/568 [**1991**]): Primate societies are parsed into 5 basic systems, after which variations on these themes are investigated. Students learn that nonhuman primates vary from solitary, positively antisocial species, to animals that gather in groups of up to 300. The evolutionary and ecological bases of primate intelligence, communication, tool use, territoriality, aggression, parenting, affiliation, and sociality are detailed.

INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY (B200 [**1992**]): B200 is an introduction to the biological study of humans. Students learn the basics of genetics, evolutionary theory, human evolution, human adaptation, and human variation. Five supervised labs give students hands-on experience with primate morphology, dental anatomy, fossil anatomy, and biological methods.

HUMAN PALEONTOLOGY (B464 [**1992**]): Our understanding of human evolution is traced from classical Greek philosophy, to the modern synthesis, to socioecology. Epistemology from Plato to Popper is related to the human fossil record. Four labs allow students to examine fossil primates and fossil humans first-hand to gain an in-depth familiarity with every stage of human evolution. Ecology, subsistence strategy, and functional anatomy are emphasized.

THEORY AND METHOD IN HUMAN PALEONTOLOGY (B524 [**1993**]): Hypothesis testing, experimental design and evolutionary theory are examined through the primary literature. A selection of diverse and influential research articles focus discussion. Interwoven with readings are labs in which students observe, measure and then interpret hominid fossils in light of the readings. Paleoecology, species identification, molecular taxonomy and cladistics are

critiqued as the meaning of human fossils is explored. Graduate students achieve a level of familiarity with hominid fossils that prepares them to teach human paleontology to undergraduates with confidence and currency.

TREES TO TOOLS: EVOLUTION OF THE HUMAN FORAGING PATTERN (B400/600 [1994]): In this seminar a deeper understanding of fossil hominid cultural and intellectual evolution is sought through readings on optimal diet theory, optimal foraging theory, socioecology, human and ape food processing techniques, ape foraging strategies, ape tool use and early human technology.

SISTER SPECIES: LESSONS FROM THE CHIMPANZEE (E105 [1995]): *Sister Species* is as much a survey of the natural sciences as it is a review of chimpanzee research. Chimpanzee research is merely the nexus through which students are introduced to the fields of history and philosophy of science, taxonomy, anatomy, functional morphology, kinesiology, physiology, ecology, nutrition, ethology, molecular biology, epidemiology, pathology, endocrinology, embryology, genetics, psychology, linguistics, public policy, and animal conservation.

UP FROM THE APE: WHY ARE THERE HUMANS? (B400/600 [1995]): In this seminar students discuss hypotheses that purport to explain why and when humans evolved characteristics unique among the primates. Seminar begins with a discussion of which features define humanity. A series of lectures on human evolution follows. Students read, discuss and debate the merits of scientific articles that grapple with critical issues in human evolution.

ADVANCED READINGS IN HUMAN PALEONTOLOGY (B400/600 [1995]): Advanced undergraduates and graduate students read and discuss the merits and meaning of up-to-the-week human evolution research. Focus is on groundbreaking works from the months and weeks – and sometimes hours – before each meeting. Students have a strong voice in the choice of weekly topics.

PRIMATE FIELD OBSERVATION TECHNIQUES (A495 [1995]): Behavioral sampling, behavioral statistics, hypothesis testing, experimental design, practical botany, primate ecology, and ecological sampling are among the topics in this methods course. Students are required to critique a sample of laudable primate behavior papers and apply what they have learned in their own project.

PRIMATES (B466 [2001]): *Primates* is an upperclass/graduate level seminar meant for advanced bioanthropology undergraduate majors and graduates with research interests in primate behavior and ecology. In the course of the semester we will work our way through John Fleagle's masterful *Primate Adaptation and Evolution*. Among the issues Fleagle addresses are the evolution of primate feeding strategies, primate functional anatomy, the evolutionary and ecological bases of sociality, evolution of territoriality and primate phylogeny are covered in the text. Familiarity with primate taxonomy, socioecology and evolutionary theory are helpful.

PRIMATE BEHAVIOR: THE JANE GOODALL LEGACY (B400/600 [2002]):

Primate Behavior consists of two weeks of lectures on chimpanzee behavioral research, followed by seminar discussion. Students consider the structure of chimpanzee ecology and society, the quality of relationships between chimpanzees, feeding behavior, sexual behavior, communication, language studies, association patterns, grooming relationships, mother-infant interactions, reproduction, locomotion and posture, hunting, tool use, dominance relationships, aggression, and the importance of kin relationships. Seminar discussion begins with consideration of two classic descriptions of chimpanzee behavior by Jane Goodall, *In The Shadow of Man* and *Through a Window*, followed by discussion of the Goodall's more formal research and that of her colleagues.

THE ADAPTED PRIMATE MIND (A501/B400/B600 [2004]): The Adapted Primate Mind is a seminar concerned with the unusual selective pressures that have acted on the nonhuman primate mind to yield a host of unusual and complex behaviors. Some particular issues that will be discussed in the seminar are: complexity of foraging regimes, categorization and discrimination, optimal-diet decision making, tool use, quantitative abilities, communication, long-term relationship maintenance, reciprocity and exchange, theory of mind, deception, coalition formation, political maneuvering, and culture. We explore these issues through readings drawn from both a text and the primary literature, in talks given by guest speakers, and in discussions with visitors and among ourselves. Principal readings come from Tomasello and Call's *Primate Cognition*, supplemented by primary literature where appropriate.

HOW WE GOT HERE: A LOOK AT CHIMPANZEES, DARWIN AND OTHER CLUES TO UNDERSTANDING THE EVOLVED HUMAN (College S105 [2005]): The human body is a marvelous machine: it is capable of remarkable feats of endurance; it houses a brain capable of supercomputer-like intellectual calculations; and it is remarkably sturdy, resilient and durable. In many ways, the body maintains itself almost without our noticing. It fights off disease, turns food into energy, repairs itself, and accommodates to an extraordinary range of temperatures. Some of these capabilities are unusual—if not unique—in the animal world, others are unremarkable and performed every bit as competently by other animals, and still other human capacities, such as night vision, muscular power, bone strength, acuity of smell, and reproductive output seem positively stunted compared to other animals. In this class we consider how humans came to exist by looking at what humans are, how and why they came to be, how they are similar to and different from other animals, and how our evolutionary past influences our lives today.

3. Teaching History, Instructor

11-12	Spr.	B466	The Primates	(Jr-Sr/Gr)	(scheduled)

Graduate Student Supervision

1. Doctoral Dissertations Supervised

- 1991 – 1998 Eric A. Worch, *Play in Four Species of East African Monkeys: Implications for Early Childhood and Elementary Education*, Indiana University.
- 1994 – 2002 Kristian J. Carlson, *Shape and material properties of African pongid femora and humeri: their relationship to observed positional behaviors*. Indiana University.
- 1996 – 2007 Julienne N. Rutherford. *Litter size effects on placental structure and function in common marmoset monkeys (Callithrix jacchus): Implications for intrauterine resource allocation strategies*. Indiana University.

2. Current Doctoral Supervision

- 1996 – Shawn D. Hurst
- 1998 – Kimberly Dingess
- 2003 – Gilbert Ramos
- 2006 David R. Samson
- 2007 Blaire Hensley-Marschand (Cochair w/ David Polly)
- 2009 Alicia M. Rich

3. Doctoral Dissertation Committee Member

- 1992 – 1996 Scott L. Kight, *Maternal Behavior in the Burrower Bug, *Sehirus cintus* (Heteroptera: Cydnidae): Integrating Physiology, Ecology and Organism*. Indiana University
- 1994 – 1996 Mohamed Sahnouni, *Archaeological Investigations at the Lower Palaeolithic Site of Ain Hanech, Algeria, and Their Behavioral Implication*. Indiana University
- 1997 – 2001 Lorena M. Havill, *Osteon Remodeling: The Impact of Maternal Lineage and Interactions among Various Influential Factors*. Indiana University
- 1997 – 2003 Dietrich W. Stout, *Stone Tools and the Evolution of Human Thinking: Cultural, Biological and Archaeological Elements in an Anthropology of Human Origins*. Indiana University
- 2000 – 2006 Jason Heaton, *Taxonomy of the Sterkfontein Fossil Cercopithecinae: The*

Papionini of Members 2 and 4 (Gauteng, South Africa)

- 2001 – 2007 Charles Egeland, *Zooarcheology and Taphonomic Perspectives on Hominid and Carnivore Interactions at Olduvai Gorge, Tanzania*. Indiana University
- 2006 – 2008 Alison French Doubleday, *LRP5 Polymorphisms and Bone Mineral Density in the Baboon (*Papio hamadryas anubis/cynocephalus*)*. Indiana University
- 1998 – 2008 Leslie Harlacker. *The Biomechanics of Stone Toolmaking: Kinematic and Kinetic Perspectives on Oldowan Lithic Technology*. Indiana University.

4. Current Doctoral Dissertation Committee Member

- 2007 August Costa
- 2007 Lisa Becker
- 2007 Laurah Turner
- 2007 Cari Lewis

5. Masters Degrees Supervised

- 2000 – 2003 Cynthia Cordero.
- 2001 – 2008 Heather L. Hansen

Undergraduate Student Supervision**1. B.A. Honors Thesis Chair**

- 1991 – 1992 Evan A. Ronneau, *The Evolution of Human Bipedality*. Indiana University
- 1999 – 2002 Jessica Ash, *An Exploratory Study of the Relationship Between Paleoclimatic Variation and Cranial Capacity Increases in the Genus Homo*. Indiana University
- 2002 – 2003 Matthew Nowak, *Proximal and Subtalar Ankle Joint Complexes in the Hominoidea*. Indiana University

2. B.A. Honors Thesis Committee Member

- 1991 Richard S. Kassissieh, *The Homoplastic Human Face*. Harvard University
- 1991 David. S. Strait, *Comprehensive Dental Sexing of Australopithecus afarensis Fossils*. Harvard University
- 1994 – 1995 Robin A. Moser, *Trauma in the Middle Woodland Period: Sex and status at Pete Klunk and Gibson Mound sites* (defended September, 1995)

3. B.A. Individualized Major Program

- 2008 – 2010 Individualized Major Program Adviser, Margaret Hirschauer, "Mammalian Social Behavior"

Symposium Organized

- 1995 "Evolution, History, and Biological Anthropology. A symposium in honor of C. Loring Brace" (with Lucia Allen Yaroch). Sixty-fourth annual meeting of

the American Association of Physical Anthropologists.

Professional Societies

1979 –	Sigma Xi
1981 –	American Association of Physical Anthropologists
1991 –	International Primatological Society
1992 –	American Society of Primatologists
1993 –	American Association for the Advancement of Science
1998 –	American Association of University Professors

Service

1. Department

1991 – 1993	Salary Committee (P. Girshick, Chair)
1991 – 1993	Equipment and Funding Committee (E. Moran, Chair)
1993 – 1995	Salary Committee (C. Greenhouse, Chair)
1994 – 1995	Long Range Planning Committee (K.D. Vitelli, Chair)
1994 – 1995	Executive Committee (G. Conrad, Chair)
1994 – 1999	Equipment and Funding Committee (Chair)
1995 – 1996	Undergraduate Affairs Committee (R. Meier, Chair)
1995 – 1999	Biological Anthropology Undergraduate Advisor
1996 – 1997	Graduate Awards Committee (R. DeMallie, Chair)
1996 – 1998	Undergraduate Affairs Committee
1998	Acting Graduate Advisor (Fall Semester only)
1999 – 2001	Undergraduate Affairs Committee (Chair)
1999 – 2001	Undergraduate Advisor
2000 – 2001	Curriculum Review Committee
2001 – 2003	Graduate Admissions & Awards Committee
1993 – 2003	Department Webmaster
2000 – 2004	Executive Committee
2002 – 2006	Steering Committee, Center for Integrative Study of Animal Behavior
1995 – present	Director, Human Origins and Primate Evolution Laboratory
2005 (Fall)	Acting Director of Graduate Studies
2005-2006	Chair, Graduate Affairs Committee
2006 (Fall)	Acting Chair, Department of Anthropology

2006	Chair, Search Committee, Global Health position (Michael Muehlenbein hired)
2006-2007	Chair, Graduate Admissions and Fellowships Committee
2006-2008	Chair, Human Biology Human Origins Concentration Curriculum Committee
2007-2008	Chair, Graduate Affairs Committee
2007-2008	Graduate Admissions & Awards Committee
2007-2008	Director of Graduate Studies
2007	Chair, Search Committee, Stone Age Institute Paleoneurology position (P. Thomas Schoenemann hired)
2008-2009	Chair, P.T. Schoenemann Tenure Committee
2008-2009	Interim Chair, Department of Anthropology
2009-2010	Chair, Frederika Kaestle Tenure Committee
2009	Chair, Search Committee, Anthropology faculty member and Director of First Nations Education and Culture Center, (Brian Gilley hired)
2010	Chair, Brian Gilley Tenure Committee
2011-2012	Chair, Michael P. Muehlenbein Tenure Committee
2009-2011	Director of Graduate Studies
2009-2011	Chair, Graduate Affairs Committee
2. College	
2001 – 2006	College Policy Committee
2003 – 2004	College Policy Committee (Chair)
2009-2010	Chair, First Nations Educational and Cultural Center Director (Brian Gilley hired)
3. University	
1994	Summer Faculty Fellowship Committee (A. Carmichael, Chair)
1996	Media Production's Instructional Media Development Grants Award Committee (R. Zuzolo, Chair)
1999	Exploring Majors Undergraduate Expo
2000	Judge, IU STARS Undergraduate Research Program
2000 – 2002	BFC External Relations Committee (Joe Miller, Chair)
2000 – 2002	BFC Foundation Relations Committee (Rex Stockton, Chair)
2000 – 2002	Bloomington Faculty Council (BFC)
2002	Chancellor's Fellowship Award Selection Committee (Michael McGerr, Chair)
2002	Outstanding Junior Faculty Award Selection Committee (Matthew Christ, Chair)
2002 – 2003	BFC Faculty Affairs Committee (Ahijit Basu, Chair)

2002 – 2004	Sabbatical Leaves Committee (Susan Eklund, Geoff Conrad, Chairs)
2003	Chair of Dean of Faculties Office Campus Review Board, April 28
2003 – 2004	American Association of University Professor, Executive Committee
2003 – 2005	Bloomington Faculty Council
2003 – 2005	BFC Faculty Affairs Committee (Ted Miller, Chair)
2003 – 2005	UFC Faculty Affairs Committee (Ted Miller, Chair)
2005 – 2006	BFC Agenda Committee
2003 – 2005	American Association of University Professors, Executive Committee
2006 – 2007	BFC Agenda Committee
2007 – 2008	Co-Chair, BFC Faculty Affairs Committee (with Ted Miller, fellow co-chair)
2007 – 2008	BFC Faculty Affairs Committee (Lloyd Kolbe, Chair)
2007 – 2008	UFC Faculty Affairs Committee (Lloyd Kolbe, Chair)
2007 – 2008	BFC Agenda Committee
2007 – 2008	UFC Agenda Committee
2007 – 2008	BFC Budgetary Affairs Committee
2007 – 2008	General Education Committee
2005 – 2008	President, American Association of University Professors, Bloomington Chapter
2008	Glenn Black Laboratory of Archaeology, OVPR Review Committee
2008 – 2009	Search Committee, Vice President for Faculty and Academic Affairs
2009 – 2011	Graduate Faculty Council

4. Other Service

1994	Organizing committee (K.D. Schick, N. Toth, co-chairs), Biannual Society of African Archaeologists Biannual National Meeting
1998	McNair Scholar Faculty Mentor (supervised Jessica F. Cantlon)
2004	McNair Scholar Faculty Mentor (supervised David Samson)
1999 – 2004	Treasurer, Sigma Xi, The Scientific Research Society, Bloomington Chapter
1992 – present	Sigma Xi membership committee
2007 – 2008	President, Sigma Xi, The Scientific Honor Society, Bloomington Chapter
2008 – 2009	Cox Scholar Mentor, Aaron Ryan

5. Professional Refereeing

Journal reviews	<i>American Anthropologist, American Journal of Primatology, American Journal of Physical Anthropology, American Museum of Natural History Novitates, Animal Behaviour, Current Anthropology, Evolutionary Anthropology, Folia Primatologica, International Journal of Primatology, Journal of Human Evolution, Paleoanthropology, Proceedings of the National Academy of Sciences, Science, and Yearbook of Physical Anthropology.</i>
-----------------	---

Book manuscripts *Cambridge University Press, Harvard University Press, Norton, Prentice-Hall, Princeton University Press.*

Grant reviewing *LSB Leakey Foundation, MacArthur Foundation, National Science Foundation, Natural Environment Research Council, National Geographic Society, Wenner-Gren Foundation for Anthropological Research, Primate Conservation Incorporated.*

6. Editorship

2009 – Editorial Advisory Board, *Politics and Life Sciences*

Media appearances

1993 BBC Horizons. “Some Liked It Hot.” Discussed the evolutionary origin of human bipedalism.

2000 “Human ancestors” Discussion of chimpanzees and fossil hominids on children's public television show, "Friday Zone", WTIU Public Television Station, Bloomington, IN, April 21.

2010 “Dry Habitat Chimpanzees” *National Geographic*
